Browncoat is a slang term from the space western TV series ***Firefly,*** and its big-screen sequel ***Serenity,*** for a member of the Independent Faction, which lost to the Alliance in the Unification War.

Browncoat is also a nickname for a fan of the ***Firefly/Serenity*** franchise, created by Joss Whedon, best known for the ***Buffy the Vampire Slayer*** TV series. Browncoats are often compared to Trekkies because both television shows were canceled before their time and later returned as movies due to strong fan bases.

The **Pennsylvania Browncoats** is a group of several hundred ***Firefly/ Serenity*** fans located in or near the Commonwealth of Pennsylvania. We organize social events, such as meetups, shindigs and outings, as well as charitable activities, such as the **Can't Stop the Serenity** screenings of the ***Serenity*** movie benefiting **Equality Now.**
